

Paper Publications 2017-2018 ODD

S.No	Name of the Staff	Designation	Title of the paper	Name of the Conference/ Journal	Details of publication (Vol.No, Issue No, Month & year)
1	A.Chithra	Prof	A novel 3 –level energy heterogeneity clustering protocol with hybrid routing for a concentric circular wireless sensor network	Springer science + Business Media,LLC 2017	11 -11-2017
2	Dr .P.Vasuki	Prof	Survey of target detection in SAR images	International conference on “Design and applications of structures ,drives, communicational and computing systems”	13-10-17

3	Dr .P.Vasuki	Prof	Deblurring algorithms for portable fundus camera images for diagnosis of diabetic Retinopathy	International conference on “Design and applications of structures ,drives, communicational and computing systems”	13-10-17
4.	A.shakin banu	ASP	Survey of target detection in SAR images	International conference on “Design and applications of structures ,drives, communicational and computing systems”	13-10-17
5.	J.Kanimozhi	AP	Deblurring algorithms for portable fundus camera images for diagnosis of diabetic Retinopathy	International conference on “Design and applications of structures ,drives, communicational and computing systems”	13-10-17
